The following is an examiner's statement of reasons for allowance: After careful consideration of the Applicant's remarks the Examiner has found the independent claims are allowable. There is no evidence in the prior art of a fusion implant comprising an implant member having an outer wall having a plurality of grooves extending substantially continuously about the outer wall to define a plurality of discrete ring-like segments, each ring-like segment including a plurality of apertures, wherein none of the apertures intersect the grooves.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
